VLAD'S ONLY FRIEND IN WORLD

EVIL KIM'S HAPPY BIRTHDAY TO PU

By CHRIS POLLARD

ISOLATED Vladimir Putin's 70th birthday party was cancelled yesterday — but he did get a celebratory message from North Korean despot Kim Jong-un.

Lavish celebrations were called off amid rising tensions in Russia over the president's disastrous invasion of Ukraine. Jong-un, the only world leader to acknowledge Putin, congratulated the warmongering dictator for "crushing the challenges and threats of the United States".

In a sign of deepening ties between them, he added: "Russia is reliably defending the dignity of the state and its fundamental interests."

And he hailed Putin's "distinguished leadership and strong will". Jong-un said co-operation between Communist North Korea and Russia has been strengthened recently like "never before".

But Putin has never been more isolated on the world stage as he continues his brutal, yet floundering,

Message as bash binned

assault on Ukraine. Last weekend, he illegally annexed four regions of the country, including Donetsk.

Hours later, Russian troops were squeezed out of the area's key city of Lyman — and Ukraine has since liberated dozens more towns.

Putin's party plans were scrapped amid signs the Russian people are starting to turn on him.

Yesterday a Kremlin source was quoted as saying "now is not the time" for birthday celebrations.

● **PUTIN'S** desperate generals reportedly sent 500 convicts, including rapists, murderers and violent criminals, to fight on the front line after Ukrainian troops' advances inflicted crushing defeats.

This is the end of Putin — Pages 32 & 33

Monsters . . . Jong-un shakes hands with Putin on a visit to Russia in 2019

Sources: 'The Sun' 8th of October 2022

The number of hostile and offensive press articles in the British press is very large. We are not surprised, as People's Korea is demonized and portrayed in a bad light on purpose by Western media in the service of imperialism.

Recently, the tabloid 'The Sun', popular with the lumpenproletariat community, published a hostile and disgusting article. Let's have a look, one example, how to lie and create disgusting articles, hostile to the People's Korea, the British press that serves the imperialist ruling classes.

On October 8th 2022, British tabloid 'The Sun' published an article under the offensive title of 'Evil Kim's happy birthday to Pu' by Mr Chris Pollard.

Firstly *'The Sun'* is lying at the beginning of the article. Russian President Vladimir Putin is not like Mr. Chris claims 'Isolated'. Russia under the leadership of its president still has extensive contacts and agreements, and international relations with many countries of the world. But well, for Mr Chris and the editors of *'The Sun'* the world begins and ends with Great Britain and of course the USA and other European countries hostile to Russia.

Secondly, President Putin's birthday has not been canceled at all, as Mr Chris falsely claims. The Birthday was a little public celebration. On this occasion President Putin joined leaders from Uzbekistan, Tajikistan, Belarus, Armenia ...

Thirdly, the next lie, and this is already in the first sentences of this article, is constantly repeated and probably unprecedented on a global scale by the Western media, mass misrepresentation of the truth and the claim that Russia invaded Ukraine just like that - because it is evil and attacks without any reasons. In fact, it is intentionally changing the truth. The claim used in the article *'disastrous invasion'* does not correspond to the facts. Russia is conducting a special military operation, not all over Ukraine, but in its eastern part. It should be added, that the real reasons for the Russian military action are to be found in the agreements with Russia broken by the Ukrainian regime, and in the conflict that has lasted since 2014, in which the Ukrainian regime bombed the cities of Donetsk and Luhansk and killed Russian citizens for a long time. The armament of the fascist militia and the storage of huge amounts of weapons, including biological weapons. These are the true reasons. But well ... *'The Sun'* tabloid, of course, has to write in the general world mainstream, binding only the right Russophobic trend, of course, such facts will not be given.

The ignorance and lack of knowledge of the subject related to DPRK and its leader is evidenced even by the fact that Mr. Chris from British *'The Sun'* tabloid, cannot even correctly spell the name of Marshal Kim Jong Un using: *'Jong-un'*

Obvious nonsense and false claims are that President Putin was: *'has never been more isolated on the world stage as he continues his brutal yet floundering assault on Ukraine'*

Actually Russia is not isolated. Ineffective and stupid restrictions on the part of Western countries on Russia, do not affect Russia's international relations with other countries that have not succumbed to imperialist propaganda. Meanwhile, the editors of *'The Sun'* create the reality that the world is ending in Western countries.

We feel the effects of Western restrictions and economic embargo on many raw materials and products from Russia from the beginning of the idiotic policy of the West towards Russia, and we will feel even more. Rising fuel, food, electricity and gas prices are the result for supporting the Ukrainian regime by imperialist governments in Western countries, including the UK.

Indeed, reading this article, you can sum up that the level of hostile propaganda to the DPRK and other countries that are not imperialism's pupils is very high. Articles like that in British tabloid *'The Sun'* keep British society out of the way of the truth and educate British society to hate other nations, the DPRK and Russia.

The reports about the alleged victories of the Ukrainian army presented in this article are also untrue. In fact, the Ukrainian army is failing after failing in its desperate defense of Zelensky's regime government. Thousands of refugees pay bribes on the Polish border to escape from Ukraine, escape from the compulsory incorporation into a decaying Ukrainian army and die senselessly in a war they did not want, unleashed by a madman inspired by fascism and created as a hero by the Western media.

The truth about the rightness of the Russian military operation in Ukraine, an operation necessary and expected by all people of Russian nationality, who for many years were discriminated against, persecuted and bombed in their homes in Ukraine and now these areas, Donbas and Lugansk get back peace and freedom by free democratic votes. These areas despite of being part of Ukraine in the past, were bombed by Zelensky's regime so by forces of the same country.

The tabloid also made up false stories about alleged incarnations into the Russian army of criminals, as he fancifully presents in his disgusting article Mr. Chris. In this subject, it is enough to read the code and regulations of admission to the Russian army, to not to believe such nonsense.

It is the true was and not will be presented by western mainstream media, that the society of Donetsk and Lugansk was simply fed up with the fascist Zelensky government and its military invasions and wants to live in peace, therefore it wants to live in Russia, not in a country where new military bases are being prepared for the money of foreign powers and military groups are being organized against another country. So, nonsense for nonsense and a lie for a lie, is fully fitted in an article written by Mr Chris.

So, all of that in reality and truth is strongly opposite to the fables presented by *'The Sun'*.

We strongly recommend both Mr. Chris and the entire editorial staff of *'The Sun'* tabloid to get acquainted with the real reality of political, social and economic life of the DPRK and activities of Marshall Kim Jong Un, before they start writing anything about this wonderful country and formulate offensive terms for the leader of the state, who from the beginning of his activity did more for his a nation since 2011, by eleven years, more than one pompous and full of empty phrases leader elected by the capitalist elite in pseudo - democratic elections, and caring for his own and his ruling elite being praising luxury and wealth, and ignoring the life of an ordinary citizen. Such an example as British feudal monarchs from the UK's past history at the present time too.

During the leadership of Marshal Kim Jong Un, socialist Korea flourished even more strongly in all spheres of social and economic life. Thousands of comfortable and free housing, donated to ordinary citizens in Pyongyang, great social projects to improve the well - being of citizens, free health care, cheap public transport and food supplies with prices unchanged for decades, no taxes ... in spite of that all, calling Marshal Kim Jong Un by Mr Chris from *'The Sun'* tabloid, as he is devil, is truly diabolical logic and for all those who know the truth about the socialist paradise in Korea of Juche, it is - tragicomic and laughable.

But as we can imagine, for Mr. Chris and the editors of *'The Sun'*, DPRK with his devil Kim Jong Un is a country full of concentration camps and hungry poor people under the regime. This is the mainstream trend and the only valid truth admitted to the public media.

By the way, it is worth denying one more lie spread by Western media that the increase in fuel prices was the result of the war in Ukraine and its cause is the bad will of President Putin. Well, according to the economic laws of the market economy, so much praised by capitalist countries, when there is a shortage of a raw material, its demand grows, and so its price grows. The shortage of raw material for the production of fuels, which is crude oil, cheap oil previously imported from Russia and now as a result of the childish offense of the European countries of the allied vassals of the USA against Russia, is subject to the embargo, this shortage causes that oil companies raise fuel prices in accordance with the logic of the capitalist economy. It is also the result of the unbridled greed of these companies, greed for the highest possible profit from sales in a situation where it is convenient to find the so - called *'scapegoat'* to blame the rising prices - Russia and Putin. It is paradoxical, however, that some countries continue to import petroleum from Russia despite the embargo by so - called *'circular roads'* and sell it to other European countries, after adding another price for their profit, shouting for bad Russia and supporting anti - Russian economic sanctions at the same time. Here you should look for the rising

price of oil and not in spite of Putin who turned off the valve with the transmission of oil which is nonsense.

Moreover, it should also be said that Mr. Chris from *'The Sun'*, finding the message of wishes from Marshall Kim Jong Un for the President of Russia Vladimir Putin, for the subject of his article, presents an exceptionally pathetic level of journalism. Crafting offensive terms and writing lies about anyone's birthday wishes is a unique example of lack of culture and rudeness. It also shows the lack of themes in this embarrassing tabloid.

Finally, we appeal to all members of KFA UK, do not be passive and silent when you see in the media, in the press, hostile and derogatory attacks on the good name of the people of People's Korea, its Leader beloved Marshal Kim Jong Un or whatsoever.

Please stand militant and respond to these attacks. If you yourself cannot, do not have time or for other reasons you do not want to actively oppose such blasphemous press articles, send examples of hostile articles to our Editorial Committee or let us know by simply contact, and we will act.

Defend People's Korea with NO IFS and NO BUTS!
